

This July 20, 2001, update is from EPA's Chemical  
Emergency Preparedness and Prevention Office.  
Direct links to each document are provided.  
Volume 1, Number 15 includes:

1. Updated List of Lists
2. Updated LEPC Database

\*\*\*\*\*

1. EPA has recently updated the Consolidated List of Chemicals Subject to the Emergency Planning and Community Right-to-Know Act (EPCRA) and Section 112(r) of the Clean Air Act (also known as the List of Lists). This consolidated list has been prepared to help firms handling chemicals determine whether they need to submit reports under sections 302, 304, or 313 of EPCRA and, for a specific chemical, what reports may need to be submitted. It will also help firms determine whether they will be subject to accident prevention regulations under CAA section 112(r). These lists should be used as a reference tool, not as a definitive source of compliance information. Compliance information for EPCRA is published in the Code of Federal Regulations (CFR), 40 CFR Parts 302, 355, and 372. Compliance information for CAA section 112(r) is published in 40 CFR Part 68. A searchable database of the Consolidated List of Chemicals will soon be available on this website. <http://www.epa.gov/ceppo/pubs/title3.pdf>

2. The LEPC Database has been updated to include submitted changes. This new version of the LEPC Database allows you to search for your LEPC by zipcode. It lists RMP Facilities located within an LEPC's jurisdiction and also facilities that might affect that LEPC. It is our goal to provide the most current and accurate information. Please forward any changes or corrections to Dana Robinson <robinson.dana@epa.gov>. These changes will be incorporated and updated monthly.
